

Attachment to Preliminary Amendment dated September 24, 2002

Abstract of the Disclosure

AI
A suspendible packaging for a sharp-edged tool includes a protective sheath and an element for supporting the tool in different positions on the sheath, including a first position adapted for sales exposure in which at least a major part of the tool is free of the sheath and exposed for inspection by a prospective buyer, and a second position in which the tool is inserted in the sheath and ready to be handled by a user.
